

Care & Maintenance

Care,

- Keep floor or window sill where leading edge
- caster runs on clear of debris and obstructions.
- Use mild detergent if wiping dirt / grease off the
- gates, to prevent scratching. DO NOT use abrasives
- of any kind
- Keep leading edge casters clean, remove any
- debris from swivel and axel.
- Mortise cylinder lock post, tighten cylinder if loose.
- Mobile trolley systems require wheels to be kept
- clean of debris.

Maintenance,

- Every 12 months or if lock gets sticky, put a small drop of lubrication on the slam lock receiver pins.
- Do a general inspection yearly, to make sure gate
- opens and closes without any physical force.
